W. Wallace, Paymaster, Hospital Corps, U.S.A.

3<sup>rd</sup> Canadian Division Artillery, Longue  
Pointe, Quebec, November 1918.

# Enzymes

Left Manila 7:30 p.m. Oct. 30th 1906 on H. S. F. T. "Mindanao".  
Party arrived at the Calinan River 8:45 a.m. Oct 31st. After a  
Chinese daybreak Oct. 31st. Left Calinan on the 2nd tributary boat -  
Pompolo returning at 5:30 p.m. Oct. 31st on the coast, at 8:45 p.m.  
Left Calinan 9:30 a.m. Nov. 2nd and went 35 miles SW to Bungayau  
River, running on the western chain of P. T. Bn. 30 and P. T. Bn. 1.  
Left Bungayau Camp 9 a.m. Nov. 3rd marched SW. 1 mile to Mangyan  
clearing on top of hill, named Buana Vista, elevation 1200 ft.  
Proceeded down 15% incl. to river, named the Erasol, distance 1 mile  
then 300 yds. down stream to Alag River. Crossed Alag at this  
point and followed up stream along east bank 2 miles to point  
where it joins Yorks. Proceeded up east fork called the Alag for 1-  
1/2 miles around the (water) 1 mile. A camp was made (Camp No 2),  
10:30 A.M. Left 2:30 P.M. and marched up Alag 1/2 mile to a small  
gully. Turned up small stream entering Alag 1/2 from the west  
Bridges, trees, etc., on south. Head of stream. After 1/2 mile  
Mangyan clearing at 2300 ft. elevation. Camp No 3 at this point  
in stream 1/4 m down with slope to the SW from river.

Bethel, 8:30 a.m. Nov. 22nd - 2 p.m. - 1000 ft. on base of mtn.  
No camp before Camp No. 1, same elevation as the  
last. From McMurphy had obtained 30' by 6' mtn. tent.  
No 8 ft. x 10 ft. tent. This is the best.  
Suspension bridge over the river. Walked up Falcon R. to the  
ridge. A hand-dug adit to the north (SW) end of the ridge.  
Camped at 300 p.m. at 3000 ft. elevation. Camp No. 2. No white pine  
in this camp.

Nov 23rd - Reckon camp to be in transition zone, delimiting  
tundra, follow right side of stream to about 1600 ft. elevation.  
Find houses in the clearing, a settlement of men  
in a group, they have been here since 1890. They are  
men of the Yukon, camp No. 3 to the left. At 3 p.m. - 1000 ft.  
Left camp at 8 a.m. Nov 24th - proceeded along base, on south side  
~~of~~ of the mtn. at 6300 ft. elevation. Camp No. 4.  
Named "Fawn Lake" in honor of Mrs. E. D. Merritt, Elam  
of the buck, Camp 3's "Fawn Lake", distance 1 mi. before  
Camp 4. At 1 p.m. 5 atoms of the buck  
at 1 mi. distance. At 1 p.m. 17<sup>th</sup> m. hence east  
along the west side of the mtn. to the right  
bank of the mtn. stream. Camp No. 7. At 2 p.m. 18<sup>th</sup> m.  
walked up the mtn. stream. At 3 p.m. 19<sup>th</sup> m.  
crossed the mtn. stream. At 4 p.m. 20<sup>th</sup> m.  
the mtn. stream. At 5 p.m. 21<sup>th</sup> m.  
Left Haines.

Edgar C. Jones  
Haines

 (8000 to 9000 feet)  
 Summit of Halcon Range " 21-23. " 7  
 Camp No. 3 to the coast. ....

## Mount Haleon

A native, named San Augustin, Secretary to the Gov., at Calapan, can furnish the best information & influence.  
Shape a big ridge, much chopped up.

Lumbered to the top; but timber at top is just short brush.

Capt. Ahern has been up the Baco River, which is probably the most direct approach to Mt. Haleon.

At Calapan resides Mr. Kobbe, forestry bureau expert.

Byron Q. Young, Diamond Lumber Co.,  
Calapan, Mindoro. Lives in the barrio of Subaan. Knows of no white man's having been on top of Haleon.

Munyanes are the native inhabitants. They have rice patches more than half the way up. Can ascend Baco R. 12 miles to base of Mt. Haleon.

Governor Offley, Capt. U.S.A.

Get some constabulary from Calapan, who can talk the Munyan natives.

There are both constabulary and scout soldiers at Calapan.

The best season to visit Mindoro is April or May would be the driest, preferably April (own)

Two Americans (one named Brown) spent several months prospecting on the upper Abaco River at base of Halcon.

A native of Baco, Mindoro, a chemist, knows a great deal about that country. A civil or mining engineer.

"San Agustin", one boat launch brings the "Coffey" to Manila about once a month
